

ARFF\_11-6-21: Which Cross When  
Ann Croft, Happy Hurdler

Novice/Intermediate: Keep it flowing. Cross after #5 and wrap #13?

Masters: Through #11, just keep it flowing. Gets a bit dicier after that, but doable. Just plan ahead.

International: No rest for the weary on this one. If you're up for the challenge try it, or just try a piece of it. It's good mental and physical practice to plan and execute a complex series of crosses.

You may want to work sections of these longer sequences to try various handling options to see what works best for you and your dog.
