

ARFF: 5-5-21: Jumpers handling: Set up as many as you like

Exercise 1

End of course. No lead out. Will a rear cross at the weaves cause a pull-out? Try both sides of the weaves. How will you handle the turn to the spread?

Exercise 2

Exercise 3

Start of a course. Easy to drop or miss bars. Drive straight ahead after #5. Try the serpentine from each side to see which works better for you and your dog.

Middle of course. No lead out! Lots of off-course possibilities.
