

Turning in place is not motivating for most dogs. Keep moving smoothly and be aware of where you're going. A cross in the middle of a pinwheel can help guide your dog and keep him moving.

This is a simple "S" shape up and back. Make it as fast and as smooth as possible (as a warm-up).

Two consecutive pinwheels. Don't get stuck. Keep moving, especially in the "depressed" one.

All 3 pinwheels. Which way to turn after #3?
