

ARFF 9-22-21: SW Regional 2012  
 Grand Prix: Original = blue circles  
 Easier = teal squares

There's no rest for the weary on this course. How will you handle the start, with the double pointing invitingly! at the off-course tunnel? Stuffing the dog into the #13 tunnel will be a challenge. You may want to cross after the #17 teeter.

This one's much easier, especially after you get through the opening.
