ARFF 10-5-22: Handling Odd Jumping Angles

Some variations to try:

- 1) Two jump lead out, send to #3 relying on dog independence.
- 2) Try layering #6 and sending to #5.
- 3) Try sending the dog to the right for #3.
- 4) Try less of a lead out with a cross after #2 (blind or front).
- 5) Try curling the dog right on #6 for a shorter path for smaller or bendy dogs.
