

**ARFF 11-2-22 Weaves with Double and Triple**

This segment of an AKC JWW course offers a straight-on approach to the weaves out of a tunnel. Make sure you pick up your dog at the tunnel exit and that he sees the weaves. You'll want to cross after #8 to get your dog over #9 and #10. You rarely encounter a double to a triple in competition, but try it.

Try keeping your dog on the L through #3. It's a U-turn into the offside weaves (You might want to practice this separately.) #5-#7 are fast; be ready to turn your dog over #8 and get him into the tunnel. As your dog exits the tunnel, reconnect and get him turned toward the double so he doesn't take an off-course over jump #3.
