

ARFF 6-15-22: Weavemania: Find the Entry

From CR 10/16: Nancy Gyes

This setup has some easy as well as challenging weave entries. I have a new weave pole rule for my students during practice! If their dog has blown out of the weaves, they need to reward every set of poles for another month by throwing a toy or cookie to the dog as he exits.

If you truly want to have great weaves it takes many, many reinforcements to keep your dog happily finishing the 12th pole, even if you are at a distance. When I reward a set of poles, I move to the location I would like to be in when my dog completes the weaves and then I throw from that location, or have someone else throw the reward in if I am too far away.
