

ARFF 6-29-22 Those OTHER Jumps

ARFF 6 29 22: These OTHER Jumps  
based on 2018 Cynosport World  
Games Steeplechase Quarter finals

All the "odd" jumps are on arcs. Make sure your dog sees the jump. He'll build up speed coming out of the #4-#6 line, so line him up carefully for weave entry. Will you be daring and try a rear cross before the weaves? He'll land long after the triple so gather him up for the second weave entry (#10). You may want to practice this in sections.

Here you'll do the double—broad jump combo in the other direction. If your dog is flying after the broad jump, how will you get him turned toward the #5 triple. If you wrap the tire, and get your dog on your right, you're good to the end.
